

Seeking: Project Architect

Who We Are

SixTwentyOne is a young and vibrant design studio located in America's heartland. We are dedicated to creating modern, lasting spaces and communities that promote living a joyful life. Whether we are designing a single-family residence for a family of three, or a multifamily project that houses 500, our expertise and commitment to excellence ensures our clients get the very best product to fit their specific needs.

To see more about who we are and what we value, check out our (6) ideals for the (21)st Century.

Who We're Looking For

We are looking for a self-motivated, driven individual who is excited about joining a small, creative studio environment. The perfect individual for the position takes pride and personal ownership in their work, and understands the impact our built environment has on the lives of others. This individual will work on a broad range of projects, ranging from large-scale multifamily, to inspiring office spaces, to forward-thinking single family residences.

Licensure is not required, but a minimum 5-10 years of experience is preferred, with an ability to manage projects from conception to completion with guidance from a committed leadership team. Required experience:

- Bachelor's or Master's Degree in Architecture
- 5-10 years of experience (or more)
- Independent project management experience
- High proficiency in Revit
- Familiarity with SketchUp
- Proficiency in Adobe Creative Suite
- Knowledge of building codes and zoning
- Strong organizational, analytical and problem-solving skills
- General working knowledge of sustainable design practices.

Preferred Experience:

- LEED, WELL or other certification will be given preference
- Experience with Enscape, V-Ray and/or other visualization programs

Your Role

You will play an active role in the growth and development of a young business, and lay groundwork for your professional growth in the future. Your roles and responsibilities will be limited only by your desire to learn. Immediately, the ideal candidate will fulfill the following job roles:

- Construction Document preparation in Revit
- Project schedule execution and management
- Production of client presentations
- Coordinate design work with internal team, consultants, clients and regulatory agencies

What we Offer

Beyond helping us build our culture from the ground up, our employees can all expect the following:

- Competitive Salary
- Flexible work schedule
- Flexible work location
- Simple IRA
- Healthcare Option
- Paid holidays, vacation, and sick leave
- Paid maternity/paternity leave
